## Summary

I am a passionate web developer and AI engineer with over 5 years of experience in the industry. I have a strong understanding of both front-end and back-end development, and I am proficient in a variety of programming languages, including Python, JavaScript, and R. I am also experienced in using AI and machine learning techniques to solve real-world problems.

I am a highly motivated and results-oriented individual with a proven track record of success. I am always looking for new challenges and opportunities to learn and grow. I am also a team player and I am always willing to help others.

I am confident that I have the skills and experience necessary to make a significant contribution to your team. I am eager to learn more about your company and the role that I could play in helping you achieve your goals.

## Experience

### Full-stack Developer

Saif Academy

Nov 2020 - Present (3 years)

Created an educational website for my English teacher to facilitate distance learning. The website includes a login system, exam feature, and notice board.

This project allowed me to use my skills in web development and design to create a valuable resource for my teacher and his students. The website is easy to use and navigate, and it provides students with a convenient way to access course materials, take exams, and stay up-to-date on important announcements.

I am proud of the work that I did on this project, and I believe that it demonstrates my skills and abilities as a web developer. I am confident that I can use these skills to make a positive contribution to your team.
